

Come and visit our Carriage Museum, one of the biggest and richest carriage museums in Europe and find out more about the Lusitano horses that we used to raise. More than just horse-drawn carriages, these are stories with over three centuries of existence.

Located in the Alentejo heart, Monte da Ravasqueira is a estate with 3000 hectares of history and stories. Linked to the *José de Mello* family for three generations, Monte da Ravasqueira offers more than wine and vineyards.

Visit the wine cellar, and taste the expressions of the art of viticulture and oenology in combination with the *terroir*, that makes unique and exclusive wines. At Ravasqueira, we are always in good company if we are surrounded by wines!
